MRS. MARY FELLOWS.....	Supervisor, Sewing Room
MRS. JUHL SHELTER.....	Matron, Nurses' Home

*To the Honorable Board of  
Commissioners of State Institutions,  
Tallahassee, Florida.*

SIRS:

Kindly accept this as the report of the Florida State Hospital for the biennial period July 1, 1926, to June 30, 1928.

The Honorable W. V. Knott resigned the position as Superintendent of the Hospital on August 15, to accept the position of State Auditor, and the undersigned, whose position in the institution was Chief Physician, was employed by your honorable body as Chief Physician and Superintendent.

The following are the changes that have taken place in the medical staff during this period:

Dr. W. C. McConnell resigned the position as Assistant Physician on December 1, 1926; Dr. F. M. Woodall resigned as Assistant Physician on January 1, 1927, and Dr. B. F. Barnes resigned as Assistant Physician on January 15, 1927.

Dr. F. E. Daves was employed as Assistant Physician and his services began December 21, 1926; Dr. J. H. Pound was employed as Assistant Physician, beginning his services on July 4, 1927; Dr. W. G. Miles was employed as Assistant Physician, his services beginning July 4, 1927; Dr. W. F. Edwards was employed as Assistant Physician, his services beginning July 11, 1927; Dr. J. R. Saunders as Assistant Physician, beginning his service on July 15, 1927.

Mr. Delester Sackett resigned as Laboratory Technician on October 4, 1927, and was succeeded by Mr. R. E. Morgan, whose services began on October 4, 1927.

There were present in the Hospital July 1, 1926, 2,490; there were admitted from July 1, 1926 to June 30, 1927, 1,220; there were released 599, giving a percentage of 0.49 plus of those admitted released. There were present on July 1, 1926, 2,490; admitted 1,220; hence a total treated of 3,710. There

died during this period 400, giving a percentage of .107 of those treated dying. There were present July 1, 1927, 2,710 giving a net increase during the first year of this report of 220.

There were admitted from July 1, 1927 to June 30, 1928, 1,406; there were released during this period 691, giving a percentage of those admitted released .49 plus. There were on hand 2,710 July 1, 1927; admitted 1,406, giving a total number treated during this period of 4,116. There died during this time 451, giving a percentage of .109 dying. There were on hand July 1, 1928, 2,973, giving a net increase during the second year of this report of 263.

For further details with reference to the admissions, releases and deaths see the tabulations covering same.

The following buildings have been constructed during this period:

One White Male Dormitory Building, which will accommodate approximately 400 patients.

One new store house, 50x200 feet, built of concrete blocks with a concrete floor, and slate roof, making it as nearly as possible fire proof.

There have been several cottages for employees built.

The White Women's Dormitory Building is being remodeled with new bath rooms installed throughout, which will change this building very materially for their comfort, and enable a much more satisfactory classification of patients now than formerly.

A new Foundry has also been built, the one formerly used being very small and entirely inadequate.

There is under construction at present an additional unit to the Power Plant.

The details with reference to the activities during this period are explained in the reports of the various supervisors and department heads, which are included in this booklet.

I wish to express my appreciation to my predecessor for his kindness and assistance during the period of his direction of the Institution, and his assistance to me since his having gone; to the Board of Commissioners of State Institutions for their kind and courteous consideration and very valuable assistance and direction, and to all of the employees of the Institution for their assistance and co-operation, and frequently valuable counsel.

Respectfully submitted,

J. Q. FOLMAR, M. D.,

*Superintendent.*

## REPORT OF DENTAL DEPARTMENT

DR. J. Q. FOLMAR,  
*Superintendent.*

SIR:

I submit herewith a report of the Dental Department of The Florida State Hospital for the period from July 1, 1926 to June 30, 1928.

The changes in the personnel of the staff of this department have been as follows:

Dr. W. D. Truett resigned on August 15, 1926, at which time I succeeded him as Chief of the Dental Department. On January 26, 1927, Dr. G. C. Albright was added to the staff, resigning February 5, 1927, his place being filled by Dr. W. R. McCollum on February 15, 1927.

Other additions to the personnel consist of two young women and one young man, transferred from other departments of the institution, and trained into efficient dental nurses and dental laboratory technician respectively, and the employment of a young woman for reception room and record keeping work.

The physical aspect of the Dental Infirmary has been changed during this period to more nearly admit of the care of the patients under a comprehensive plan, three operating rooms and a laboratory having been developed. A single chair Infirmary has been established in the Colored Male Building, where the colored male and female patients are given regular dental attention one day each week.

The work itself has been carried on under the plan of regular routine examination and immediate completion of indicated dental treatment for all new patients as admitted, with the same plan for those who have been in the institution longer, by means of ward visits, and attention to those sent to the Infirmary at the request of members of the medical staff, and

by the supervisors of the departments, with particular attention to the edentulous cases, restoring them to efficiency by means of artificial dentures.

A complete system of records has been evolved, embracing every item of dental treatment given each patient, this data being incorporated in the general case record of the patient.

The accompanying tabulations give in detail a record of the dental operations for this period:

	July 1, 1926 to June 30, 1927	July 1, 1927 to June 30, 1928
Examinations .....	1,414	1,699
Extractions .....	5,592	7,039
Prophylactic treatments .....	855	1,242
Palliative treatments .....	407	388
Irrigations .....	470	1,368
Denture preparations and adjustments .....	1,037	1,210
Dentures delivered .....	381	416
Crown and bridge preparations and adjustments .....	242	226
Crowns and bridges delivered .....	85	60
Dentures repaired .....	22	36
Bridges repaired .....	7	9
Radiograms .....	56	30
Fillings .....	507	783
Observations .....	671	2,074
Curettements .....	31	92
Hospital and ward visits .....	946	1,523
Total operations .....	12,272	18,524
Total patients seen .....	7,929	13,692
Completed indicated dental treatment for .....	914	1,588

In addition to the above, several fractures have been treated and mouth growths removed, in conjunction with members of the Medical Staff.

Tooth brushes and paste have been given to all patients treated and are replaced as frequently as necessary.

The co-operation given this department by the Superintendent, the Medical Staff and the heads of the departments has been complete, and greatly appreciated.

Respectfully,

A. F. DOUGLAS, D. D. S.,

*Chief Dentist.*

## REPORT OF SUPERINTENDENT OF NURSES

The commencement of the Training School for 1927 was held June 16th at 8:30 o'clock in the Recreation Hall, Hon. W. V. Knott, Superintendent, presiding. Diplomas were given to four young ladies, presented by Dr. J. Q. Folmar. Dr. J. M. Beggs presented the Hospital pins and the address was delivered by Rev. W. P. Chalmers.

The commencement of the Training School for Nurses for 1928 was held June 14th at 8:30 o'clock in the Recreation Hall, Dr. J. Q. Folmar, Superintendent, presiding. Eight young ladies received diplomas, which were presented by Dr. J. C. Inman. The class address was delivered by Judge Amos Lewis of Marianna, Florida, and Dr. J. M. Beggs presented the Hospital pins.

### GRADUATES OF CLASS OF 1927

Mrs. Ellen Whigham Cobb, R. N., Somerset, Kentucky.

Miss Mary Lee Mayo, St. Petersburg, Florida.

Miss Vermell McDonald, R. N., Florida State Hospital, Chattahoochee, Florida.

Mrs. Eddie Lou White, R. N., Florida State Hospital, Chattahoochee, Florida.

### GRADUATES OF CLASS OF 1928

Miss Ruth Allen, R. N., Tampa, Florida.

Miss Aileen Brown, R. N., Fayetteville, Tenn.

Mrs. Billy Barton, R. N., Freeport, Florida.

Mrs. Irene Wesley Hill, R. N., Florida State Hospital, Chattahoochee, Florida.

Miss Shelley Robinson, R. N., Florida State Hospital, Chattahoochee, Florida.

Miss Vera Phillips, R. N., Florida State Hospital, Chattahoochee, Florida.

Miss Janie Watson, R. N., Athens, Georgia.

Mrs. Myrtle Allen Woodham, R. N., Florida State Hospital, Chattahoochee, Florida.

R. E. MORGAN,

*Laboratory Technician.*

## RECREATION

In the weekly program of amusements there is provided a moving picture show on Monday night for white patients, and Tuesday night for the colored patients. On each Friday night a dance is given for the benefit of the patients, the music being furnished by an orchestra composed of patients and employees.

We have recently completed a baseball park and grandstand and during the baseball season we have two games a week, which are entered heartily into by patients and employees.

From time to time other entertainments are staged and more is being done every day to give those in our care amusement and recreation.

### OCCUPATIONAL THERAPY

Occupational therapy consists of a form of suitable employment for patients. In selecting the line of endeavor a patient is to follow, his training along certain lines, his physical and mental condition, and his reaction toward the work, all play an important part. No patient is required to follow any employment but those found suitable are encouraged to take part in doing something, and it has been found that this adds materially to their improvement as well as their happiness and contentment while in the Institution. The proceeds from this department are used largely in the purchase of books, magazines, music (sheet music and Victrola records), and such things as the patients enjoy most themselves.

### REPORT OF CHIEF STEWARD

DR. J. Q. FOLMAR,

*Superintendent.*

SIR:

I submit herewith report for the period beginning July 1, 1926 and ending June 30, 1928.

During the period of this report many improvements have been made. We have just completed a new storage warehouse and commissary, which will enable us to keep all supplies in one building, that were heretofore stored in various buildings and basements.

The Cost Accounting and Perpetual Inventory System installed has proved to be a very economical benefit. It not only

saves much in dollars and cents but enables us to determine definitely the disposition of supplies and to have at all times a correct check on the cost of operation of the various departments, and to know at all times just what we have on hand in the way of supplies.

By referring to Tables Nos. 1, 2 and 3 you will note the per capita cost of maintenance.

Respectfully submitted,

GLEN F. WRIGHT,

*Chief Steward.*

#### REPORT OF CHIEF ENGINEER

DR. J. Q. FOLMAR,

*Superintendent.*

SIR:

I submit herewith report of Engineering Department for the period beginning July 1, 1926, and ending June 30, 1928.

The steam power plant has operated continuously.

The water turbines have furnished power for pumping water, except while water head was not great enough.

The electric plant has operated continuously, except when lines have been damaged by lightning and while making high tension connections.

The refrigerating plant has functioned very satisfactorily running every day, supplying all the ice required and keeping cold storage rooms at proper temperatures.

We have installed and added to plants:

One 1,000 GPM, rotary pump at 350' head driven by one 125 HP 2200 volt motor.

One 500 GPM 8x12x8x12 Gardner Compound Steam Pump.

Overload circuit breakers installed on two generators.

One voltage regulator.

Two recording Watt Meters, one on each generator.

One 300 HP, Marine Type Babcox and Wilcox, 200-lb.

pressure boiler complete with stack.

Five steam injectors.

One spray pond, 150,000 gallon capacity, complete with pipe and spray nozzles.

One 500 ft. surface condenser with circulating and vacuum pumps.

One rotary steam pump for circulating water for condenser.

One boiler feed pump.

One universal grinder.

One seven foot raidus drill.

One pipe threading machine—1" to 4".

One bolt threading machine— $1\frac{1}{2}$ " to  $1\frac{1}{2}$ ".

One steam pump for pumping water from old power house to supply tanks.

Additions to fire and water mains:

800 ft. 5" wroght iron pipe connected.

1,000 ft. 4" wrought iron pipe connected.

300 ft. 6" galvanized pipe with four hose connections for protecting planing and saw mill.

12 hose connections.

250,000 gal. water tank installation completed, connection to water main with 400 ft. 8" cast iron pipe.

Added to cold storage:

One seven and half ton electric driven ammonia compressor.

Added additional direct expansion coils to two cold storage rooms, and completed insulation and direct expansion refrigeration to two additional cold storage rooms.

Added to laundry:

One motor generator set complete with 30 HP motor and 20 KW DC generator and controlling boards.

Replaced old washers with six American Laundry Washers, direct current, direct driven.

Two extractors, direct current, motor driven.

One extractor, belt driven.

One one roll steam mangle, belt driven.

One  $\frac{3}{4}$  HP exhaust fan.

Two steam pressers.

One Glover Dry Cleaning Plant with one extractor, one washer, and one deodorizer.

One steam dry room.

Additional electrical equipment installed:

36 electric fans.

7 transformers.

13 motors.

31 telephones.

5 electric hot water heaters.

All buildings have been completed with conduit except the colored male building.

Plumbing fixtures installed as follows:

1,000 feet radiation in white female department.

100 eight-section range toilets complete.

26 low tank toilets.

24 waste sinks.

10 bath tubs.

75 showers.

85 lavatories.

9 sinks.

1 urinal.

28 drinking fountains.

4 thirty gallon hot water boilers.

2 steam hot water heaters with three 570 gallon hot water tanks.

5 570 gallon water tanks on towers.

1 cast iron foundry has been added to the brass foundry and is now in satisfactory operation.

1 steam dry kiln for lumber has been installed.

1 steam engine for saw mill.

1 steam engine for shingle mill and edger.

1 steam engine for two planers.

1 steam engine, twin cylinder hoister, for operating elevator for handling material during construction white male building.

4 steam cooking pots.

3 coffee urns.

In addition to the above, this department has also done all the repair work in its several fields, which constitutes quite an item in itself.

Respectfully submitted,

J. L. DAVIS,

*Chief Engineer.*

#### REPORT OF CONSTRUCTION DEPARTMENT

DR. J. Q. FOLMAR,

*Superintendent.*

SIR:

Kindly accept this as a report of the Construction Department for the period beginning July 1, 1926, and ending June 30, 1928.

This department has manufactured lumber and other materials used in the erection and completion of the new buildings and repairs on old buildings as listed below:

#### NEW CONSTRUCTION

Spray pool.

Tenant apartment house.

New syrup factory.

New Ward Building No. 10-A.

New warehouse, 50x200 feet.

Chicken brooders.

Three new cottages.

One dry kiln and planer mill. Planer mill equipped with new planer and blower system complete.

Moved and rebuilt carpenter shop. Carpenter shop equipped with machinery.

Individual garage, five stalls, near hotel.

Vault completely equipped adjoining Administration Office.

New recreation yard for white male patients.

#### ADDITIONS, ALTERATIONS, ETC.

Repaired cold storage, adding two rooms (basement).

Side walks and curbs, new additions to each.

Remodeled laundry and dry cleaner.

White male wards have been improved and repaired.

Cut 1,000 posts for farm.

Moved and rebuilt wood yard.

Interior of White Male and White Female Ward Buildings have been painted.

Remodeled and improved plumbing shop.

Foundation for gasoline tank.

Basement for morgue remodeled and improved.

Receiving Hospital has been improved and repaired considerably. Ceiling for the entire building has been removed and Celotex used instead. Building painted throughout.

New slaughter house nearing completion.

Many buildings have been repainted.

The Cement Block Factory has operated successfully, furnishing blocks for buildings constructed, besides having a stock of 20, 935 blocks for buildings in progress.

Saw and Planer Mills have been in constant operation, manufacturing lumber as shown in table herewith.

The Repair Department has had four men constantly employed in the proper maintenance and repair of the many buildings.

Respectfully submitted,

H. W. Ross,  
*Foreman.*

## SAW AND PLANING MILLS

	Lbs.	Lbs.
Feed crushed .....	235,000	253,000
Meal ground .....	173,000	196,200

## REPORT OF CASKET FACTORY

DR. J. Q. FOLMAR,

*Superintendent.*

SIR:

I submit herewith report of Casket Factory for the biennial period.

This department began operation March 18, 1926.

The following tabulation is an outline of the finished products manufactured:

- 436 Caskets
- 434 Coffins
- 4 Metal lined shipping cases
- 447 Wood shipping cases
- 358 Paper casket covers
- 1 Hearse body
- 1 Large cedar robe
- 1 Large dental cabinet

- 62 Benches for casket storage room
- 2 Drawing boards
- 1 Small thread case

In addition to the above, all patterns for the foundry are made by this department.

Respectfully submitted,

L. L. MCKINNON,

Foreman.

### FINANCIAL STATEMENT FOR PERIOD BEGINNING JULY 1, 1926 AND ENDING JUNE 30, 1928:
